

What is your instructor's name?

Patricio Cea Charbin

16. Please describe any specific teaching practices that your instructor used that:

- created or interfered with a welcoming and supportive learning environment that valued and supported equity, diversity and inclusion.
- were particularly helpful for your learning.
- helped you feel engaged with the course material.
- were less helpful for your learning.

Optionally you may offer constructive suggestions that might improve their effectiveness.

Clarified in english if necessary and always said everyone was learning so not knowing stuff was ok.

Did a lot of activities that weren't in the textbook which I thought was really helpful

I felt like the activities were the right amount of educational and entertainment, which made the class very enjoyable and a good environment to learn in.

i liked that if we were struggling he would explain topics in both spanish and english

I liked the group work a lot and I liked the fact that we would practice conversational skills on each other. I also think you created an environment that was really comfortable and made me feel fine with making mistakes and learning from them :)

I really appreciated the different language learning activities the professor used to help teach us Spanish. It made the words much easier to understand.

interesting exercises to understand the concepts and vocabulary

lots of fun activities

Make it clear the perimeters on what helps earn a participation

My instructor was able to create fun and creative activities outside of the textbook that made the learning process more interesting and engaging.

My instructor always did activities with partners and made it so we would pick a new partner every time and that was really nice and everything he did made me feel very comfortable and engaged in learning.

My professor always used a wide range of activities that often had us as students speaking to each other in a conversation, which helped me be able to more easily acquire the skills to not only comprehend but form sentences in Spanish in a quick and fluent manner. They also asked us questions individually to keep us attentive as well as played some games to keep the class fun and engaging. The only trouble I had was using wording that we hadn't yet been exposed to sometimes when explaining activities which would sometimes make it hard to know what we were doing but it always ended up getting clarified and was very helpful to my learning.

Patricio had us do a lot of fun activities to learn Spanish, which made our classes fun. He also told us not to be afraid of speaking in Spanish because everyone here is learning.

Patricio is incredibly personable and does a great job creating a comfortable and positive environment.

Patricio was a great TA—I liked his presentations, his clarifications on vocab and grammar, and the activities he prepared.

Patricio was extremely inviting to the students and fostered an amazing learning environment.

The instructor is great at explaining difficult topics and designing activities

Very good at explaining and correcting grammar
Maybe speak more Spanish

17. Is there anything else you would like to share about your experience in the course?

Before this class I hadn't studied Spanish since high school. The professor did a wonderful job helping me get reintroduced to the language. I feel a lot more confident in learning Spanish moving forward.

Great, engaging class and TA!

I like my instructor's humor a lot.

My experience was amazing I was sometimes scared to speak spanish outloud but my instructor made me feel comfortable and I cannot say enough good things about my ta.

My instructor was a lot of fun and very helpful, I enjoyed coming to this class and felt welcomed each day I attended.
